25 - MARCH - 2010

The Beat Providers consists of Edward Aandewiel and Roy van Schie, who will represent the Imperial Greenhouse Institute at the In Qontrol Conference. Edward and Roy have the intention to turn the audience upside down and will give their first LIVE performance at the Amsterdam RAI that will blow your mind. Make sure you don't miss out!

Dr. Adrian Brown reported on the latest results of the instrument that led his team to find water on Mars.

What's the reason why you have chosen for a LIVE performance?

For us, doing a live performance is something completely new. Since we love challenges and Q-dance gave us the opportunity to perform live at In Qontrol we decided to just go for it. Furthermore we think a live performance is perfect to make the Hardstyle crowd really familiar with our sound and our vision on Hardstyle. In the past few months we contacted some artists that already have some experience in live performances. We got a lot of 'tips & tricks' and at this moment we are about 'ready for take-off'!! A big thanks to all the artists who answered our questions along the way!!

Is everything improvised or will you rehearse the whole set at first?

The way things are looking now it will be a bit of both. We are aware of the fact that this will be our first live performance ever. Of course we will be 100% geared up and ready, but still it's all new to us. Therefore we will be doing some rehearsing in advance, just to be sure ;-)
Besides that, there will really be a lot of improvisation on stage. Besides some live music editing we want to give it to the crowd 'as live as it can be'. Besides 30 minutes of blasting Beat Providers hardstyle, we will also be rocking on stage ourselves, to entertain the crowd to the max! To us, live means "give everything you've got"!!

Are you intending to make new tracks especially for this set?

In the last few months we've been working our asses off in the studio to make a lot of new music especially for In Qontrol! The result is an amazing load of Hardstyle ingredients that will be mixed up during our 30 minutes live performance! Expect a wide spread diversity of Beat providers hardstyle violence!!
